Robix Reschedules Conference Call to Discuss Business Combination With Formation Fluids to June 7, 2016

June 2, 2016 – Lethbridge, AB: Robix Environmental Technologies, Inc. (“Robix” or the “Corporation”) (RZX:CSE) (Frankfurt:ROX) is announcing that the conference call to discuss the proposed business combination with Formation Fluid Management Inc. (FFM:TSX-V) has been postponed to Tuesday, June 7, 2016 at 2 pm Mountain Daylight Time. Conference call dial-in number is 1-877-385-4099 access code is 1435288#. The nonbinding LOI covering this proposed transaction was announced on May 26, 2016.

About Robix:

The Corporation is an “industrial products/technology” company, offering to investors a unique opportunity to participate in a leading company in the business of ownership of patents, and their development from commercialization to worldwide expansion through various business arrangements. Robix owns a Clean Ocean Vessel (“COV”) patent, which is an oil spill recovery vessel design with the capability to recover oil in rough and debris laden sea conditions. Robix has recognized a worldwide market opportunity for effective containment, recovery and disposal equipment, particularly in the oil spill protection industry, and it proposes to develop a business model as a service provider, and/or equipment provider under licensing agreements with other industry participants, wherein Robix will use its COV patented design solution.

About Formation Fluid:

Formation Fluid Management Inc. has developed a three stage waste water treatment plant (Hydro-Cycle) that uses a proprietary process to clean waste water. Each plant is mobile and can process up to 1000 m³ of water per day. This system treats water to meet or exceed CCME Guidelines (Canadian Environmental Quality Guidelines), resulting in reusable water that can be used for: Boilers, Frac Water, Water Floods, and Drilling Operations. Formation Fluids has identified commercial applications for the Hydro-Cycle system within the oil and gas industry. The waste water treatment system has a primary use to reduce producers’ costs of dealing with produced water. The system also satisfies the need to reuse and recycle an increasing valuable resource.

Forward-Looking Statements

This news release contains forward-looking statements and forward-looking information within the meaning of applicable securities laws. The use of any of the words "expect", "anticipate", "continue", "estimate", "objective", "ongoing", "may", "will", "project", "should", "believe", "plans", "intends" and similar expressions are intended to identify forward-looking information or statements. More particularly and without limitation, this news release contains forward-looking statements in respect of the completion of binding documentation to effect the Transaction. There is no certainty that the Transaction contemplated in the non-binding LOI will be effected by a final and binding Definitive Agreement. Although the Corporation believes that the expectations and assumptions on which such forward-looking statements and information are based are reasonable, undue reliance should not be placed on the forward-looking statements and information because the Corporation can give no assurance that they will prove to be correct.

Since forward-looking statements and information address future events and conditions, by their very nature they involve inherent risks and uncertainties. Actual results could differ materially from those currently anticipated due to a number of factors and risks. These include, but are not limited to, the risk that the formal documentation effecting the Transaction is not completed or accepted. There is no certainty that a Definitive Agreement effecting the business combination will be completed or accepted. Readers are cautioned that the foregoing list of factors is not exhaustive. The forward-looking statements and information contained in this news release are made as of the date hereof and the Corporation undertakes no obligation to update publicly or revise any forward-looking statements or information, whether as a result of new information, future events or otherwise, unless so required by applicable securities laws.
