

## **ROBIX RETAINS SMALL CAP INVEST LTD.**

**February 23, 2017 – Lethbridge, Alberta: Robix Environmental Technologies, Inc. (“Robix” or the “Corporation”) (RZX :CSE) (R0X :Frankfurt) (ROBXF :OTC)** is pleased to announce that Robix has retained Small Cap Invest Ltd. (“SCI”), a Frankfurt-based business development and PR firm, to provide the company with public relations and business development support in Germany and Europe. Alexander Friedrich is the President and Chief Executive Officer of SCI.

Stated Nathan Hansen, CEO of Robix: “We are pleased to have engaged SCI and Mr. Friedrich as part of our initiative to increase awareness of the Company in Germany and in the European market.” Adds Mr. Hansen: “We believe that this will allow us to broaden the interest in our company and establish more of a presence in Europe.”

SCI has a strong track record of working with promising growth companies to increase visibility and gain access to capital through an experienced network of partners and investors in Europe. The team has an extensive background in the European financial community and uses this to facilitate the listing of stocks, introductions to investors through road shows and trade shows, securing public funding and private financing, and a variety of other business development activities.

The objective of the agreement with SCI is designed to increase public awareness of Robix throughout Europe.

As part of this 6-month agreement, the company will provide incentive stock grants to SCI.

“Robix has a unique product solution for the oil containment industry, with a proven sales model, and excellent team and global partners,” said Alexander Friedrich, Chief Executive Officer of Small Cap Invest. “I am excited to be involved with the Company, at this stage of its growth as it is expected to enter significant revenue this year based on just its existing contracts in Mexico.”

### **About Robix**

Robix is focused on the worldwide market for oil containment, recovery and cleaning equipment specifically for the oil spill protection, oil production and water cleaning and purification industries. To that end, Robix has commercialized its C Series Clean Ocean Vessel and the P Series Stationary Platform; both are based on a patented revolutionary oil recovery technology. The C Series is a vessel that recovers oil in rough ocean waters, lakes, rivers and tailings ponds in virtually any conditions. The P Series is an oil recovery platform designed to accelerate oil recovery from settling ponds at production facilities. The Company also offers a suite of Hydro Cycle Water purification and cleaning products.
